MANUFACTURED HOMES	
TOPIC	OVERLAY
MANUFACTURED HOME GUIDELINES	<p>Overlays in this matrix apply to Federal Housing Administration (FHA) guidelines. Refer to the FHA Single Family Housing Policy Handbook 4000.1 for additional guidance.</p> <p>Information in this matrix is subject to change without notice.</p>
Standards (09/14/2015)	<p>Appraiser must notify mortgagee and report any deficiency of MPR or MPS if a manufactured home does not comply with the following:</p> <ul style="list-style-type: none"> • Floor area must be ≥ 400 sq ft • Constructed on or after June 15, 1976, in conformance with the federal MHCSS, as evidenced by an affixed HUD Certification Label in accordance with 24 CFR §3280.11 (Manufactured Homes produced prior to June 15, 1976 are ineligible for insured financing.) • Manufactured home and site exist together as a real estate entity in accordance with state law (but need to be treated as real estate for taxation purposes) • Manufactured home was moved from the factory or dealer directly to the site • Manufactured home was designed to be used as a dwelling with a permanent foundation built to comply with PFGMH • Finished grade elevation beneath the manufactured home (or, if basement used, the grade beneath the basement floor) is at or above the 100-year return frequency flood elevation • Structure is designed for occupancy as a principal residence by a single family • Lease, if applicable, meets the requirements of Valuation of Leasehold Interest
Flood Zone	<ul style="list-style-type: none"> • OCMBC does not allow manufactured homes in a flood zone.
Foundation: Existing Construction	<ul style="list-style-type: none"> • Definition: Existing construction for manufactured housing refers to a manufactured home that has been permanently installed on a site for one year or more prior to the case number assignment date. • Standard: If the perimeter enclosure is non-load-bearing skirting comprised of lightweight material, the entire surface area of the skirting must be permanently attached to backing made of concrete, masonry, treated wood, or a product with similar strength and durability. • Skirting: Skirting refers to a non-structural enclosure of a foundation crawl space that is typically, but not always, a lightweight material such as vinyl or metal attached to the side of the structure and extending to the ground (generally not installed below frost depth). • Perimeter Enclosure (MPR/MPS Item): The space beneath the manufactured home must be properly enclosed; the perimeter enclosure must be a continuous wall that is adequately secured to the perimeter of the unit and allows for proper ventilation of the crawl space. • Required Analysis and Reporting: If the manufactured home foundation does not meet the requirements for Existing Construction, the appraiser must notify the mortgagee and report the deficiency in the MPR or MMPS.

HUD Data Plate	<ul style="list-style-type: none"> • Standard HUD Data Plate Requirements: Manufactured homes have a data plate affixed in a permanent manner, typically adjacent to the electric service panel, the utility room, or within a cabinet in the kitchen. • Required Analysis and Reporting: The appraiser must report the information on the data plate within the appraisal, including the manufacturer name, serial number, model, and date of manufacture, as well as wind, roof load, and thermal zone maps. • Missing Data Plate (of Appraiser Cannot Locate): If the data plate is missing or the appraiser is unable to locate it, the appraiser must report this in the appraisal and is not required to secure the data plate information from another source. • If the data plate is missing or appraiser cannot locate it, OCMBC requires an IBTS report.
IBTS Report/HUD Certification FHA	<ul style="list-style-type: none"> • HUD Certification Label Standard: The manufactured home must have an affixed HUD Certification Label located at one end of each section of the house, approximately one foot up from the floor and one foot in from the roadside, or as near that location on a permanent part of the exterior of the house, as practicable. Etched on the HUD Certification Label is the certification label number, referred to as the HUD label number. Label numbers are not required to be sequential on a multi-section house. • Required Analysis and Reporting: The appraiser must report the HUD label number for all sections, or report that the HUD Certification Label is missing or that the appraiser was unable to locate it.
Ineligible Features	<ul style="list-style-type: none"> • The following are not allowed in relation to a manufactured home: • EEMs are not allowed for manufactured homes • Located in a co-op, condo, or PUD project • Located in a flood zone • Manufactured home with a leasehold • Manufactured home with an ADU or other structure • New construction manufacture homes • Graduated Payment Mortgage (GPM)
Manufactured Home Additions	<ul style="list-style-type: none"> • Any addition to the original structure (i.e. patio, deck, carport, rooms, etc.) requires a structural engineer report. • If the appraiser observes additions or structural changes to the original manufactured home, the appraiser must condition the appraisal upon inspection by the state or local jurisdiction administrative agency that inspects manufactured housing for compliance (or a licensed structural engineer may report on the structural integrity of the manufactured dwelling and the addition if the state does not employ inspectors).
